Summary

René van den Bosch is born in Rotterdam, The Netherlands in 1968. He studied structural engineering in Rotterdam and he is working in the field of passive fire protection since 1994. As of 2002 he is Promat's Global Manager for Tunnels.

Since 2004 he is the vice animateur of the International Tunnelling Association (ITA), working group 6, Maintenance and Repair, which issued the document Guidelines For Structural Fire Resistance For Road Tunnels. He contributed to the consortium which prepared and conducted the fullscale fire tests in the Runehamar tunnel in Norway, as part of the UPTUN research programme, funded by the European Union. He is a voting member of the NFPA 502 technical committee on Road Tunnel and Highway Fire Protection.
