

WTC2021

16 - 19 MAY 2021 Copenhagen

Dear friends and ITA colleagues

The Danish Society for Tunnelling and Underground Works will be hosting the ITA World Tunnelling Conference in 2021 at the Bella Centre in the beautiful city of Copenhagen. We are confident of attracting approximately 2000 of our colleagues from the global tunnelling sector.

The WTC is the highlight of the calendar for tunnellers each year and the organising committee have been working tirelessly to create an event which will showcase the exciting projects and tunnelling capabilities from Scandinavia, Northern Europe and globally.

We have recently issued the [invitation to Exhibit and Sponsor](#) to ITA Prime Members and have had a very strong response, with close to 50% of opportunities already sold. We will now be opening sales to the wider tunnelling industry and we expect an equally fast uptake of these opportunities.

Feedback from past conferences shows sponsors and delegates want a broader cross-section of the tunnelling industry to attend, including project developers and owners as well as contractors, suppliers and consultants. We are developing a program that will attract a broader representation from our industry.

There has never been a better time to be involved in tunnelling globally. The current and future pipeline of work in Scandinavia and Northern Europe is the envy of the world. We hope you will support us in making 2021 yet another successful World Tunnel Congress.

Attached to this letter you will find the Invitation to Exhibit and Sponsor. The floorplan for the exhibition can be found here: [Floorplan](#). A range of attractive sponsorship opportunities exist. We can also tailor a package to suit your needs. We would be grateful if you could circulate this information amongst your members.

Please contact Peder Andersen, if you require further information on +45 4492 4492 or psa@discongress.com. The order form can be found here: [order form](#)

Yours sincerely,

Søren Degn Eskesen

Chairman of the WTC2021 Organizing Committee.
